Why Choose RAIMZEAL

Advantages & key benefits

SECTION 1

About RAIMZEAL

A comprehensive fitness ecosystem built on AI.

9+ Screens	50+ Features	AI Coach	PWA
Nutrition, Workouts, Progress & more	Fully confirmed production-ready	Streaming, contextual personalised	Web & mobile, no app store needed

What is RAIMZEAL?

RAIMZEAL is a premium fitness platform built as a Progressive Web App (PWA) and native mobile companion. It combines workout tracking, nutrition logging, AI coaching, community engagement, and health analytics into one seamless experience.

The platform was created by **Dr. Ephraim Oviawe** — fitness advocate, medical professional, author, and musician — with the goal of making elite-level health guidance accessible to everyone.

About the Creator — Dr. Ephraim Oviawe

Dr. Oviawe is a multidisciplinary professional whose passion spans medicine, fitness, music, and writing. RAIMZEAL reflects his belief that holistic health is the foundation of a fulfilling life. Discover his books and music at: linktr.ee/Raimzy

Platform Overview

Mobile App (iOS & Android)

Full-featured Expo React Native app — barcode scanner, pedometer, camera integration, native device support.
Works on iOS, Android, and web browser.

Web App (PWA)

Installable on any device via browser — no app store needed.
Full feature parity with the mobile experience.
Available at: www.raimzeal.com

Technology Stack

React Native + Expo · TypeScript · Ovia AI (Streaming)
Supabase Auth · Open Food Facts API · Node.js · PostgreSQL · Vite PWA

SECTION 2

Getting Started

From zero to your first workout logged — in under 5 minutes.

Sign Up Flow

- 1 Open the App**
Visit www.raimzeal.com or open the mobile app. Tap Get Started on the welcome screen.
- 2 Create Your Account**
Enter your full name, email address, and a secure password. Tap Sign Up.
- 3 Verify Your Email**
Check your inbox for a 6-digit OTP code. Enter it in the app to verify. Expires in 10 minutes.
- 4 Complete Your Profile**
Enter age, height, weight, units (kg/lbs), fitness goal (lose/gain/maintain), and level (beginner/intermediate/advanced).
- 5 Welcome Email — You're In!**
A branded welcome email arrives with a getting-started checklist, Ovia AI motivation, and your first fitness tip.

Tip: After signing up, you are automatically enrolled in the weekly Saturday digest from Ovia AI.

Returning Users — Log In

Terms of Service

On first launch you will see the Terms of Service. Scroll through and tap **Accept & Continue**. Appears only once. Revisit via Profile → Terms of Service.

Home Screen

Your daily fitness command centre — everything at a glance.

Dashboard Overview

Widget	What it Shows
■ Calorie Ring	Circular progress ring — calories consumed vs. daily goal. Shows consumed, remaining, and goal values.
■ Step Counter	Live step progress bar toward 10,000-step goal. Mobile: real-time pedometer sensor.
■ Water Tracker	Glasses consumed today. Tap "Add glass of water" to quickly log one. Goal: 10 glasses.
■ Activity Banner	Tap to open the Activity Tracker — weekly active minutes, calories burned, WHO benchmarks.

Quick Actions Grid (2×2)

Four large shortcut buttons in a 2×2 grid:

■ ■ Start Workout Jump to Workouts Library.	■ ■ Log Meal Open Nutrition to search or scan.
■ Ask Ovia Open the AI coach chat instantly.	■ Log Body Navigate to Body Measurements.

Tip: The home screen greets you by name — "Good morning, [Name]" — adapting to your local time of day.

SECTION 4

Workouts

Build strength, endurance, and consistency with structured programs.

Tab	Contents
■ Library	7+ workout templates — Upper Body, Leg Day, HIIT Cardio, Core, Full Body, Active Recovery, and more
■ Programs	Multi-week structured plans with phases — e.g. 8-Week Beginner Builder (Foundation → Strength → Peak)
■ History	Chronological list of every completed session: name, date, duration, calories burned

Starting a Workout

Workout Player Features

- ✓ Exercise name, sets, reps, and weight instructions displayed clearly
- ✓ Progress bar showing position within the full workout
- ✓ Automated 60-second rest timer with "Skip Rest" option
- ✓ Haptic feedback on set completion (mobile)
- ✓ Live elapsed time and calorie estimate updating in real time
- ✓ Finish early or complete all sets to reach the summary screen

Workout Summary Screen

After completing a session a summary screen shows: total duration, calories burned, sets completed, and an Ovia AI motivational message. Automatically saved to History.

Programs — Structured Training

Multi-week plans with specific workout assignments per day.

Each includes total weeks, weekly frequency, and phase breakdown.

Tap a program to preview the full schedule before committing.

SECTION 5

Nutrition Tracking

Log meals, track macros, scan barcodes, and find the best foods.

Calorie Ring & Macro Bars

Large ring showing today's intake vs. your goal.

Protein, Carbs, and Fat shown as coloured progress bars with current/goal labels — updating live.

Logging a Meal — Step by Step

1

Search for Food

Type any food — results appear in real time from Open Food Facts (millions of foods worldwide).

2

Select a Food

Tap a result to open the Add Food modal — shows calories, protein, carbs, fat, and amount input.

3

Set Amount

API foods: type exact grams or ml (macros update live). Packaged foods: use +/- serving buttons.

4

Choose Category

Select Breakfast, Lunch, Dinner, or Snack from the dropdown.

5

Tap "Add Food"

Food logged instantly. Macros update. Item added to Recent Foods list.

Barcode Scanner

Tap the green **Scan** button (top-right). Point your camera at any barcode — nutritional data is fetched from Open Food Facts instantly and pre-fills the Add Food modal.

Note: Camera permission is required. The app prompts you the first time. No photos are stored.

Smart Filter Chips

Filter	Default Threshold	Purpose
■ High Protein	≥ 15g protein per 100g	Foods with significant protein content
■ Low Calorie	≤ 150 kcal per 100g	Lower energy-density foods
■ Low Fat	≤ 5g fat per 100g	Leaner food options
■ Low Carb	≤ 10g carbs per 100g	Reduced carbohydrate foods

Custom Thresholds

Each chip has a settings icon — tap it to open the threshold editor.

Adjust values with ± step buttons or type directly. Reset reverts to default.

Thresholds are saved between sessions. Labels update live: e.g. "High Protein ≥25g"

Tip: Inactive filter chips show a result-count badge — how many results would remain if you activate that filter.

Favourites, Recent Foods & History

Feature	How it Works
■ Favourites	Tap the star icon next to any food. Favourites appear in their own tab for insta
■ Recent Foods	Your 10 most recently logged foods appear for quick re-use without searching
■ History Tab	View past days' meals by date. Tap to expand and re-log or delete entries.
— ■ Edit / Delete	Tap the edit icon to adjust amount or category. Deletion requires confirmation

Progress

Visualise your transformation with charts, streaks, and achievements.

Stat	What it Shows
■ Streak	Consecutive days with at least one workout logged. Milestones at 7, 30, and 100.
■ Workouts	Sessions completed this week and cumulative all-time total.
■ This Week	Active days in the current calendar week.
■■ Change	Weight delta since first entry — green (loss) or red (gain).

Body Weight Chart

Interactive line chart of your body weight over time. Switch between **1M**, **3M**, and **6M** ranges. Tap data points (mobile) to see exact weight and date.

Weekly Calories Bar Chart

Bar chart showing calorie intake for each of the past 7 days. Identify patterns, spot problem days, and plan adjustments.

Achievements — 7 Unlockable Badges

- ✓ First Workout — Complete your very first session
- ✓ 7-Day Streak — Work out 7 consecutive days
- ✓ 30-Day Streak — The monthly consistency badge
- ✓ Calorie Crusher — Log 10 days under your calorie goal
- ✓ Macro Master — Hit all three macro targets in a single day
- ✓ Social Star — Post in the community 5 times
- ✓ Century — Complete 100 total workouts

Add a Measurement

Tap the green "+ Measure" button on the Progress screen.

Charts update immediately after logging.

SECTION 7

Community

Connect, share, and learn alongside RAIMZEAL members.

Feed	Purpose
■ Community Feed	Social feed of progress updates and general posts. Shows author, timestamp
■ Questions	Dedicated Q&A tab. Ask anything — supplements, recovery, pre-workout nut

Creating a Post

1. **Tap "+ New Post"** — Green button in the top right of the Community screen.
2. **Choose Post Type** — Post (general update) or Question (Q&A; format).
3. **Write & Submit** — Type your content and submit. Appears at the top of the feed instantly.

Interacting

- ✓ Tap ♥ to like a post — count updates immediately
- ✓ Tap ■ to view or add comments
- ✓ POST and QUESTION badges distinguish content types
- ✓ Timestamps show relative time (2h ago, 1d ago)

SECTION 8

Ovia AI Coach

Your 24/7 AI fitness coach — personalised to your real data.

Your Context Sent to Ovia with Every Message

Age, height, current weight, fitness goal & level

Today's calories consumed — protein, carbs, and fat logged

Water intake today (glasses) · Recent workouts this week

Personalised Responses

Ask "*what should I eat?*" and Ovia responds based on your actual macro gaps today — not a generic template. Every response is tailored to your real fitness data.

Streaming Responses

Ovia's replies stream word by word — no waiting for the full response. Conversations feel natural and fast, just like texting a real coach.

6 Suggested Prompts

- ✓ Design my workout plan for this week
- ✓ What should I eat today to hit my goals?
- ✓ Help me stay motivated right now
- ✓ Best supplements for my goals
- ✓ How do I recover faster?
- ✓ What are my next fitness goals?

Profile Tab

The Profile screen has two tabs: **Ovia AI** (chat) and **Profile** (personal details). Switch to Profile to edit your name, goal, fitness level, personal records, and account settings.

Ovia Weekly Digest Email

Every Saturday at 8 AM WAT — personalised motivational message, science-backed tip, links to www.raimzeal.com and Dr. Oviawe's Linktree (books & music).

All new signups are automatically enrolled.

SECTION 9

Activity Tracker

Monitor daily movement and weekly progress toward WHO benchmarks.

Metric	What it Tracks
■ Step Ring	Circular ring — steps vs. 10,000-step goal. Real-time pedometer on mobile.
■ Distance (km)	Calculated from step count using standard stride length.
■ Active Minutes	Minutes of moderate-to-vigorous physical activity today.
■ Calories Burned	Estimated activity calories (not including BMR).
■ Workouts Today	Number of workout sessions completed today.
♥■ Streak	Consecutive active days without missing a session.

Weekly Active Minutes Chart

Bar chart showing active minutes for each of the past 7 days. Summary: Total Active minutes, Total Calories Burned, and Active Days (e.g. 3/7). WHO benchmark: 150–300 minutes per week.

This Week's Workouts

All workouts logged this week with name, date, duration, and calories — a quick summary without leaving the tracker.

Tip: Access via the Activity Banner on the Home screen.

SECTION 10

Body Measurements

Track your physical transformation beyond just the scale.

Stat Card	What it Shows
■■ Current Weight	Most recently logged body weight in your preferred unit (kg or lbs).
■ BMI	Auto-calculated from height + weight. Label: Underweight / Healthy / Overweight
■ Last Change	Difference between two most recent entries. Green = loss, red = gain.
■ Total Entries	Total number of measurement logs ever recorded.

Logging a New Entry

Tap **+ Add Entry** (top right). Fields in the modal:

- ✓ Weight (kg) — required field
- ✓ Chest (cm) — optional
- ✓ Waist (cm) — optional
- ✓ Hips (cm) — optional
- ✓ Arms (cm) — optional
- ✓ Thighs (cm) — optional

History List

Every entry listed chronologically — date, weight, and delta badge (e.g. ■ -0.3 kg). Tap to expand and view full measurements. Entries can be deleted individually.

Tip: Log at the same time each day — ideally morning before eating — for the most accurate trend data.

SECTION 11

Ovia AI Reminders

9 science-backed daily reminders covering fasting, hydration, nutrition, and recovery.

Reminder	Time	Purpose
■ Fasting Morning Check-in	5:00 AM	Motivating check-in while fasted
■ Warm Water Ritual	6:30 AM	Kickstarts metabolism and digestion
■■ Protein-First Breakfast	8:00 AM	Stabilises blood sugar, fuels the morning
■■ Midday Nutrition	12:30 PM	Macro check-in — protein, carbs, fibre
■ Hydration Alert	2:00 PM	Combats the afternoon dehydration dip
■ Pre-Workout Fuel	4:00 PM	30–45 min pre-session nutrition window
■■ Evening Training	5:30 PM	Prompt to start today's scheduled workout
■ Post-Workout Recovery	7:00 PM	Protein window, stretching, active recovery
■ Sleep Optimisation	9:30 PM	Wind-down routine for optimal sleep

Managing Reminders

- ✓ Toggle individual reminders on or off with the switch on each card
- ✓ "Enable All" activates all 9 reminders at once
- ✓ "Disable All" turns off all reminders temporarily
- ✓ "Test" button (top right) triggers a sample notification immediately

Note: Reminders are Ovia AI recommendations based on general health research. Always follow your doctor's specific instructions, especially regarding fasting and medication.

SECTION 12

Share Progress Card

Generate a stunning branded card to share on social media.

Theme	Colour Palette	Vibe
■ Forest	Deep greens — RAIMZEAL signature	Clean and bold
■ Midnight	Near-black cool tones	Sleek and minimal
■ Ember	Warm reds and oranges	Energetic and bold
■ Royal	Deep purple gradient	Regal and premium
■ Crimson	Deep red tones	Intense and striking

Stats on Your Card

- ✓ Current workout streak (■ days)
- ✓ Total workouts completed
- ✓ Total calories burned
- ✓ Total weight change (■ kg lost)
- ✓ Your name and current date
- ✓ RAIMZEAL branding and logo

Option	What Happens
■ Save	Saves the card image to your camera roll (mobile).
■ Share	Opens the native share sheet — post to Instagram, WhatsApp, Twitter, etc.
■ Both	Saves to camera roll AND opens the share sheet in a single tap.

Tip: Save up to 5 named card presets. A "Restored from last time" badge appears when your previous settings auto-load.

SECTION 13

Email System

Automated emails that keep you motivated, informed, and connected.

Email Type	When Sent	Contents
■ Welcome	On signup	Getting-started checklist, Ovia motivation, fitness tip, website + creator links
■ OTP Verification	On signup / login	6-digit code to verify your email. Expires in 10 minutes.
■ Motivation	On demand	Ovia AI personalised motivational message
■ Fitness Tip	On demand	Science-backed tip covering training, recovery, or nutrition
■ Weekly Digest	Sat 8 AM WAT	Motivation, tip, progress encouragement, and creator links

Managing Your Subscription

All new accounts are auto-subscribed to the weekly digest. To unsubscribe, click the link at the bottom of any digest email or email **eniggie@gmail.com**.

Timing

Weekly digest fires every Saturday at 08:00 UTC

(= 8:00 AM West Africa Time / 9:00 AM Central African Time)

All subscribers receive the email simultaneously.

Complete Features Checklist

Every feature confirmed working and production-ready.

Core Fitness Tracking

- ✓ Workout library with 7+ pre-built workout templates
- ✓ Multi-week training programs with phase scheduling
- ✓ Real-time workout player (sets, reps, rest timer, haptics)
- ✓ Workout history with date, duration, and calories
- ✓ Step counter (device pedometer on mobile)
- ✓ Activity tracker with weekly active minutes chart
- ✓ Body measurements log (weight, chest, waist, hips, arms, thighs)
- ✓ Automatic BMI calculation with category labels
- ✓ Body weight trend chart (1M, 3M, 6M views)

Nutrition

- ✓ Real-time food search (Open Food Facts — millions of foods)
- ✓ Barcode scanner for packaged food products
- ✓ Meal logging by category (Breakfast, Lunch, Dinner, Snack)
- ✓ Exact gram/ml input for API foods with live macro preview
- ✓ Serving-based +/- input for packaged foods
- ✓ Daily calorie ring and macro progress bars (Protein, Carbs, Fat)
- ✓ Meal edit and delete with confirmation prompt
- ✓ Favourites system — star foods for quick re-logging
- ✓ Recent foods list (10 most recent)
- ✓ Nutrition history by date
- ✓ Smart filter chips (High Protein, Low Calorie, Low Fat, Low Carb)
- ✓ Custom filter thresholds saved to device, with live label updates
- ✓ Result count badges on inactive filter chips
- ✓ Filters persist across searches (cleared only explicitly)

AI & Intelligence

- ✓ Ovia AI streaming chat (word-by-word responses)
- ✓ Fully personalised context (age, weight, goals, macros, workouts)
- ✓ 6 suggested conversation prompts on the Ovia screen
- ✓ 9 Ovia AI daily health reminders with scheduled times

- ✓ Weekly digest email — automatic every Saturday at 8 AM WAT
- ✓ Motivation and fitness tip emails on demand
- ✓ OTP email verification for secure account creation
- ✓ Automated welcome email on signup

Progress & Social

- ✓ Workout streak tracker
- ✓ Weekly calorie bar chart
- ✓ Achievements system — 7 unlockable badges
- ✓ Community social feed with posts and questions
- ✓ Like and comment on community posts
- ✓ Share progress card (5 themes, stat toggles)
- ✓ Named card presets (up to 5, persisted to device)
- ✓ Save to camera roll / native share sheet
- ✓ "Both" sharing option — save and share simultaneously

Auth & Account

- ✓ Supabase email/password authentication
- ✓ 6-digit OTP email verification
- ✓ Full onboarding profile setup (age, height, weight, goal, level)
- ✓ Terms of Service acceptance gate
- ✓ Auto-subscribe to weekly digest on signup
- ✓ Branded PWA — installable on home screen
- ✓ Secure HTTPS throughout

Links & Resources

Everything you need to connect with RAIMZEAL and Dr. Oviawe.

Resource	URL	What's There
■ Main Website	www.raimzeal.com	The full RAIMZEAL web app — sign up and start tracking today
■ Linktree	linktr.ee/Raimzy	All Dr. Oviawe's links — books, music, socials, and more
■ Contact / Support	eniggie@gmail.com	Direct email for support, feedback, or inquiries

Books & Music by Dr. Ephraim Oviawe

Dr. Oviawe is also an accomplished author and musician.

Visit linktr.ee/Raimzy to discover his published books on health and wellbeing, and to stream or download his music.

Installing RAIMZEAL on Your Phone

Device	Steps
■ iPhone (iOS)	1. Open Safari → go to www.raimzeal.com 2. Tap Share button 3. Tap "Add to Home Screen"
■ Android	1. Open Chrome → go to www.raimzeal.com 2. Tap ■ menu 3. Tap "Add to Home Screen"

Why Choose RAIMZEAL

The advantages and benefits that set RAIMZEAL apart.

Advantage	Detail
■ Truly Personalised AI	Ovia receives your real fitness data before every response — workouts, mac
■ Works Everywhere	Mobile (iOS & Android), desktop browser, installable PWA. One product, eve
